"...Perpetrators often attempt to justify their acts of torture and ill-treatment by the need to

**STOP BIO-PSYCHOTRONIC WEAPONS TORTURE BRAINMIND/BODY  
CONTROLANNIHILATION SLAVERY ASSASSINATION!!!**

Dear Sir, Madam, :

Civil EFFECTS: TORTURE ... ASSASSINATION:

Electronic Harassment, eharassment.ca, < <http://www.eharassment.ca/index.htm> >.

Quote: What are the symptoms?

The following is a list of the most common symptoms which people experience. Not everyone experiences all of these symptoms, but most victims share a large number of them.

- Ringing in the ears: Can be various pitches, constant, intermittent, occurring in both ears or only one ear. Can sound like a low rumbling noise or like a buzzing mosquito, for example. Victims report a feeling of discomfort that accompanies the noise. Some report the noise being loud enough to cause excruciating pain.
- Clicking noises inside the head: Many report hearing "clicks" in their sinuses and/or their ears. Read Motorola Labs report about microwave hearing.
- Manipulation of body parts: Muscles are pulsed and/or contracted involuntarily. Feet, legs, arms, and individual fingers can be made to move by sudden jerking or the motion can be slow and controlled. This often occurs at night in bed, although it can occur anywhere.
- Piercing sensation on skin: This involves the feeling that the skin is being pierced by a needle. Some report this as painful, while others only experience it mildly.
- Sinus problems: Those who suffer from sinus problems report it to be very painful and agitating, with the sinuses filling up and pulsing, often preventing sleep from occurring.
- Sexual attacks: Many report the sensation of having their genitalia manipulated. Both men and women report this. It involves tingling, prickling, arousal and/or pain of the genital area. It is a particularly disturbing and traumatic experience, with the accompanying sensation of being severely violated. Given the "artificial/electronic" nature of it, there is no question that it is not by any stretch a "natural" occurrence.
- Tapping or Banging noises: This is experienced as coming from the outside environment. It is often a source of sleep disturbance, and occurs just as one is going to sleep. Click here for a sample recording.
- Appliances turning on/off: Some have had the experience of having appliances behave in unpredictable or inexplicable ways. Machinery containing motors will run far too fast (and/or

far too loud) causing them to break down quickly.

- **Hearing Voices:** About half of the targeted people hear voices, often identified to be those who are perpetrating the crime. The technology exists to transmit sound inside peoples heads, bypassing the ears altogether. There is speculation that this is a form of microwave hearing. Some report hearing the voices outside of their heads, as though there is a speaker inside their home somewhere.
- **Visual Hallucinations:** Some report visual hallucinations. Seeing colored lights is commonly reported.
- **Street Theatre:** Some people experience what is called "street theatre" - a form of harassment that involves multiple stalkers participating in aggravating the target, very often involving noise campaigns.
  1. See Terrorist Stalking in America, which describes how street theatre is accomplished.
  2. See two Toronto Star articles on extremist group vigilante type behavior which follows the same model of harassment.
  3. Also, see [www.gangstalking.ca](http://www.gangstalking.ca) for a more detailed description.
- **Sleep deprivation:** This is commonly reported and achieved any number of ways, but usually involving excessive noise.
- **Anxiety attacks:** Many people experience a racing or pounding heart just as they are about to go to sleep.
- **"Pseudo" heart attacks:** This involves the sensation that the chest is being tightly constricted, mimicking the symptoms of a heart attack.
- **Other symptoms:** Social isolation, chronic fatigue and other illnesses, headaches, thoughts of suicide, depression, inability to hold a job, diagnoses of mental illness, and the like often accompany the situation.
- **Computer problems:** Although victims are certainly not alone in having computer problems, they report frequent issues with emails as well as general computer use. Click here to see some examples.
- **Destruction of property:** Items are vandalized but not to the degree that it would appear to be vandalism to someone else. This technique is called "Gaslighting" and is a form of subtle revenge that is described here in a book review by Eleanor White. The purpose is to incur numerous small costs over time to the targeted individual, thereby raising stress levels, as well as to undermine a person psychologically by creating a sense of self-doubt and insecurity.

Quote:

How it affects (Physical & psycho-physical damages):

Physical damage, visible results achieved at the moment of influence.

- \* burns, pricks, cuts, wounds (ray **weapons**, laser)
- \* bleeding into the brain (laser ray with energy pulses of 40 joules) and on the skin energy in pulses: 3 - 100 joules)
- \* Blindness in the eyes, loping of eyelashes (laser ray)
- \* loss of memory (influence of frequency of up to 100Hz. and a reduction to 5 Hz.)
- \* destruction of the vestibular [inner ear] apparatus, spatial orientation
- \* symptoms of [\*\*\*] [with a large exposure and strength, paralysis (UBCh) in the area of the beginning of the spinal column
- \* irregular sleeping, heart-beating
- \* numbness of the hands; at night, cramping of the legs
- \* sharp decrease in hemoglobin, micro-burns to the skin, ionization of the blood and body fluids, an increase in the deterioration rate of clothing material, photographic material [illuminating], (thermal-electronic emissions from lamps in the room with the feeding units of electrical networks and fittings of the wall, [...]
- \* vibrations (separate organs can vibrate: the heart, kidneys, etc.), [...] (from vibrational technologies)
- \* pressure, coolness of the skin
- \* feelings of non-specific fear and panic (from the **weapons**) [...] tremors, tapping, destruction of fragile objects from the waves, from the impulses and from other manifestations of technological poltergeist

Psycho-physical damage depending on intensity and duration of effects. Damage in the physical sphere (up to programmed premature death).

#### Stage I.

- \* changes in the blood (early signs)
- \* overheating substances especially and increase in crystallization, leading to cataracts (early sign)

BRAINMIND/BODY CONTROL ANNIHILATION SLAVERY ASSASSINATION!!!**

Dear Sir, Madam, :

Civil EFFECTS: TORTURE ... ASSASSINATION:

SILENT HOLOCAUST:

"SATURDAY, JANUARY 27, 2007":

Quote: "HOLOCAUST MEMORIAL DAY/SILENT HOLOCAUST/GROUP NAME

Today, January 27, is Holocaust Memorial Day in observance of the Jewish Holocaust. It was on this day in 1945 that the Russians came and liberated the Jews from Auschwitz. This day has been observed worldwide since 2001. Victims of other atrocities are also being remembered.

We, who are victims of the "silent holocaust" are still waiting for our liberation, but coincidentally it was also a year ago today we officially adopted our group name, Freedom From Covert Harassment and Surveillance. Hopefully, this is a Divine indication that someday soon we will also achieve liberation from the Nazi tormentors. ":

Quote: "..., werd in het K.Z. Auschwitz ook onderzocht, hoe men door röntgenstralen vrouwen steriel kon maken. Hierover bericht Kleinova het volgende: "La méthode du Prof. Schumann consistait à faire d'abord une application de rayons X sur la partie inférieure de l'abdomen, c'est à dire sur les organes génitaux internes. Après quelquesunes de ces applications, une ovariectomie était pratiquée, tantôt bi-latérale, tantôt uni-latérale. Dans ce dernier cas, une nouvelle laparatomie enlevait le second ovaire quelque temps après".

Maar Prof. Schumann beperkte zich niet tot de vrouwen. Bij mannen werd het effect van röntgenstralen op een of twee testikels nagegaan door bestraling van het scrotum. Volgens Steinberg, die arts geweest is in Block 21 van het Stammlager Auschwitz, werden de mannen na de bestraling weer het kamp ingestuurd; zij waren "bis auf weiteres" van de selecties voor de gaskamer vrijgesteld. Na enige tijd werden zij ondervraagd op polluties, sexuele verlangens, karakterveranderingen, geheugenstoornissen, enz. Zij moesten masturberen en indien dit niet lukte, werd prostaatmassage toegepast, eerst digitaal, later "au moyen d'une manivelle qui était introduite dans le fondement du malheureux, quelques tours de manivelle suffisaient pour provoquer l'érection et l'éjaculation de liquide spermatique". ...":

The ICRC is convinced that this approach will contribute to building an effective "web of prevention" that can help protect humanity from poisoning and the deliberate spread of disease in the future. ":

Torture: the ultimate abuse of human rights?

In what has now become a regular yearly event, the Centre for Human Rights at the London School of Economics (LSE) and the ICRC on 11 May 2005 organized a public panel discussion on a topical issue linked to international humanitarian law and human rights law.

Quote: "The four speakers then presented their views on:

the legal background to the development of international legislation prohibiting torture (Sir Nigel Rodley, Professor of Law at Essex University and a former UN Special Rapporteur on torture)

the ethical issues and the dimension of individual responsibility raised by the argument in favour of the use of duress to obtain information from detainees in order to enhance public safety (Chris Brown, Professor of International Relations at the LSE),

the legal aspects of detention at Guantanamo Bay and the renditions of detainees to third countries where they might suffer ill-treatment (Victoria Brittain, journalist and co-author of a theatre play about Guantanamo Bay),

the challenge of defining what constitutes torture and the ICRC's experience of the impact of torture on detainees (Alain Aeschlimann, Head of the Central Tracing Agency and Protection Division at the ICRC).

The presentations were followed by a lively debate between the audience and the panel which confirmed the majority view of torture as abhorrent and served to underline the importance of the ICRC's visits to places of detention worldwide. ":

Dear Sir, Madam, :

SECRECY NEWS  
from the FAS Project on Government Secrecy  
Volume 2002, Issue No. 4  
January 10, 2002

**BILL WOULD BAN SPACE-BASED MIND CONTROL WEAPONS**

Quote: "Rep. Dennis Kucinich (D-OH) introduced a bill in the House of Representatives late last year that would ban **weapons** in space. But while there have been many similar legislative initiatives in the past, Rep. Kucinich's bill is distinguished by its unusually expansive definition of "**weapons**."

Among the **weapons** that it would proscribe the new measure includes "**psychotronic**"

devices that are "directed at individual persons or targeted populations for the purpose of ... mood management, or mind control."

No explanation for this peculiar proposal was immediately available. But the text of "The Space Preservation Act of 2001" (H.R. 2977), introduced on October 2, may be found here:

<http://www.fas.org/sqp/congress/2001/hr2977.html>

The Kucinich bill was hailed by Citizens Against Human Rights Abuse, one of a number of organizations of people who say they are victims of government experimentation involving electromagnetic and other **psychotronic weapons**. See their web site here:

<http://www.dcn.davis.ca.us/~welsh/>

The bill has been referred to three House Committees. ":

Quote: "Gareev provides a long list of new **weapons** that are under development. They include non-lethal means that incapacitate equipment and paralyze personnel.

**Psychotronic weapons**, which he describes as a new type of weapon of mass destruction that works on the psychology of people for extended periods of time -- months and years are mentioned.

Advanced research in genetic engineering and molecular biology has made possible genetic **weapons** that use man-made toxins to affect the genetic apparatus of living organisms. Electromagnetic and infra-sound to attack the human organism, as can low-frequency vibrations to bring on epilepsy. Researchers consider the development of "geophysical **weapons**" to bring on earthquakes, tidal waves, destruction of the ozone, and cloudbursts in specific regions of the world. Gareev argues that the first generation of such **weapons** were employed by the US in Vietnam and that later models have the potential for greater effect.106 ":

Dear Sir, Madam,

Chris McHale, March 2003  
The Challenge of Exotic **Weapons**

[http://www.dfait.gc.ca/arms/isrop/research/mchale\\_2003\\_exotic\\_weapons/menu-en.asp#toc](http://www.dfait.gc.ca/arms/isrop/research/mchale_2003_exotic_weapons/menu-en.asp#toc)

Definition and Categories

Quote: Exotic **weapons** might also be interchanged with other terms such as "wonder **weapons**," often associated with **weapons** programs developed by Nazi Germany during World War II. Due to the multiple uses of the term, can a working definition be produced for exotic **weapons**? ...

By manipulating physical components, chemical composition, concentration or manipulating DNA, non-lethal **weapons** could be made lethal and vice versa.

[http://www.dfait.gc.ca/arms/isrop/research/mchale\\_2003\\_exotic\\_weapons/section02-en.asp](http://www.dfait.gc.ca/arms/isrop/research/mchale_2003_exotic_weapons/section02-en.asp)

Current Issues: Possible Effects of Exotic **Weapons** on Warfare, Intervention and Security

Quote: Whether one considers exotic **weapons** to consist of technologies such as EMP, HMP or **psychotronic weapons** and in separate categories from those systems more traditionally recognized as non-lethal, there is an important commonality that both categories share. Any of these systems may make it easier for states to initiate a conflict or intervene from the outside into an existing conflict.
